Aarav Mehta

Backend Software Engineer

aarav.mehta@example.test | Austin, TX | portfolio.example.test/aaravmehta

PROFESSIONAL SUMMARY

Designed FastAPI services for an order platform serving 2M requests per day. Reduced p95 latency 38 percent with Redis caching and query tuning. Built CI checks and contract tests for 14 services.

TECHNICAL SKILLS

Python, FastAPI, PostgreSQL, Redis, Docker, AWS, REST APIs

PROFESSIONAL EXPERIENCE

Built production REST APIs using Python and FastAPI.

Worked with PostgreSQL and Redis for backend data services.

Wrote automated tests and CI/CD pipelines for production releases.

Deployed Docker services on AWS.

Diagnosed production issues and collaborated with product engineers.

Maintained service documentation and participated in code reviews.

Optimized API latency and database queries.

Supported on-call troubleshooting for backend services.

Delivered backend services with more than two years of experience.

Backend Software Engineer | Vertex Systems | 2023 - Present

- Designed FastAPI services for an order platform serving 2M requests per day. Reduced p95 latency 38 percent with Redis caching and query tuning. Built CI checks and contract tests for 14 services. Collaborated with product and engineering partners to deliver measurable customer outcomes.
- Owned technical planning, code reviews, and production support for work aligned to Python and adjacent systems.

EDUCATION

B.S. Computer Science, University of Texas at Austin, 2021

SELECTED PROJECTS

Backend Software Engineer portfolio project: built and documented a production-style solution using Python, with tests, monitoring, and a short implementation guide.
