Maya Chen

Frontend Engineer

maya.chen@example.test | Seattle, WA | portfolio.example.test/mayachen

PROFESSIONAL SUMMARY

Shipped accessible React workflows used by 180K monthly users. Improved Largest Contentful Paint by 42 percent through code splitting and image optimization. Built Playwright coverage for checkout flows.

TECHNICAL SKILLS

TypeScript, React, Next.js, Redux, Tailwind CSS, Jest, Playwright

PROFESSIONAL EXPERIENCE

Built production REST APIs using Python and FastAPI.

Worked with PostgreSQL and Redis for backend data services.

Wrote automated tests and CI/CD pipelines for production releases.

Deployed Docker services on AWS.

Diagnosed production issues and collaborated with product engineers.

Maintained service documentation and participated in code reviews.

Optimized API latency and database queries.

Supported on-call troubleshooting for backend services.

Delivered backend services with more than two years of experience.

Frontend Engineer | BlueOak Technologies | 2024 - Present

- Shipped accessible React workflows used by 180K monthly users. Improved Largest Contentful Paint by 42 percent through code splitting and image optimization. Built Playwright coverage for checkout flows. Improved documentation, monitoring, and operational handoffs for the team.
- Owned technical planning, code reviews, and production support for work aligned to TypeScript and adjacent systems.

EDUCATION

B.S. Human Computer Interaction, University of Washington, 2020

SELECTED PROJECTS

Frontend Engineer portfolio project: built and documented a production-style solution using TypeScript, with tests, monitoring, and a short implementation guide.
