Rohan Iyer

Data Engineer

rohan.iyer@example.test | Chicago, IL | portfolio.example.test/rohaniyer

PROFESSIONAL SUMMARY

Built Airflow pipelines processing 450 GB daily into Snowflake. Added dbt tests that reduced broken dashboards by 60 percent. Migrated batch jobs to Spark and cut runtime from 3 hours to 48 minutes.

TECHNICAL SKILLS

Python, SQL, Spark, Airflow, Snowflake, dbt, AWS S3, Kafka

PROFESSIONAL EXPERIENCE

Built production REST APIs using Python and FastAPI.

Worked with PostgreSQL and Redis for backend data services.

Wrote automated tests and CI/CD pipelines for production releases.

Deployed Docker services on AWS.

Diagnosed production issues and collaborated with product engineers.

Maintained service documentation and participated in code reviews.

Optimized API latency and database queries.

Supported on-call troubleshooting for backend services.

Data Engineer | Northstar Labs | 2022 - Present

- Built Airflow pipelines processing 450 GB daily into Snowflake. Added dbt tests that reduced broken dashboards by 60 percent. Migrated batch jobs to Spark and cut runtime from 3 hours to 48 minutes. Collaborated with product and engineering partners to deliver measurable customer outcomes.
- Owned technical planning, code reviews, and production support for work aligned to Python and adjacent systems.

EDUCATION

M.S. Data Science, Northwestern University, 2022

SELECTED PROJECTS

Data Engineer portfolio project: built and documented a production-style solution using Python, with tests, monitoring, and a short implementation guide.
