Sofia Alvarez

Machine Learning Engineer

sofia.alvarez@example.test | New York, NY | portfolio.example.test/sofiaalvarez

PROFESSIONAL SUMMARY

Trained a document classification model with 91 percent macro F1 across 18 classes. Served PyTorch inference through Kubernetes and MLflow. Added drift monitoring and retraining triggers for production datasets.

TECHNICAL SKILLS

Python, PyTorch, scikit-learn, MLflow, NLP, Docker, Kubernetes

PROFESSIONAL EXPERIENCE

Built production REST APIs using Python and FastAPI.

Worked with PostgreSQL and Redis for backend data services.

Wrote automated tests and CI/CD pipelines for production releases.

Deployed Docker services on AWS.

Diagnosed production issues and collaborated with product engineers.

Maintained service documentation and participated in code reviews.

Optimized API latency and database queries.

Supported on-call troubleshooting for backend services.

Machine Learning Engineer | Vertex Systems | 2023 - Present

- Trained a document classification model with 91 percent macro F1 across 18 classes. Served PyTorch inference through Kubernetes and MLflow. Added drift monitoring and retraining triggers for production datasets. Improved documentation, monitoring, and operational handoffs for the team.
- Owned technical planning, code reviews, and production support for work aligned to Python and adjacent systems.

EDUCATION

M.S. Machine Learning, Columbia University, 2021

SELECTED PROJECTS

Machine Learning Engineer portfolio project: built and documented a production-style solution using Python, with tests, monitoring, and a short implementation guide.
