Noah Williams

DevOps Engineer

noah.williams@example.test | Denver, CO | portfolio.example.test/noahwilliams

PROFESSIONAL SUMMARY

Managed Kubernetes clusters across three AWS regions. Created Terraform modules for networking and IAM. Reduced deployment time from 45 to 12 minutes with GitHub Actions and Helm.

TECHNICAL SKILLS

Kubernetes, Terraform, AWS, GitHub Actions, Helm, Prometheus, Grafana

PROFESSIONAL EXPERIENCE

Built production REST APIs using Python and FastAPI.

Worked with PostgreSQL and Redis for backend data services.

Wrote automated tests and CI/CD pipelines for production releases.

Deployed Docker services on AWS.

Diagnosed production issues and collaborated with product engineers.

Maintained service documentation and participated in code reviews.

Optimized API latency and database queries.

Supported on-call troubleshooting for backend services.

DevOps Engineer | BlueOak Technologies | 2024 - Present

- Managed Kubernetes clusters across three AWS regions. Created Terraform modules for networking and IAM. Reduced deployment time from 45 to 12 minutes with GitHub Actions and Helm. Collaborated with product and engineering partners to deliver measurable customer outcomes.
- Owned technical planning, code reviews, and production support for work aligned to Kubernetes and adjacent systems.

EDUCATION

B.S. Information Systems, Colorado State University, 2019

SELECTED PROJECTS

DevOps Engineer portfolio project: built and documented a production-style solution using Kubernetes, with tests, monitoring, and a short implementation guide.
