Samir Shah

Solutions Engineer

samir.shah@example.test | Dallas, TX | portfolio.example.test/samirshah

PROFESSIONAL SUMMARY

Led technical discovery and API prototypes for 35 enterprise prospects. Built Python proof of concepts that shortened evaluation cycles 20 percent. Documented integration patterns and trained customer engineering teams.

TECHNICAL SKILLS

Python, JavaScript, APIs, SQL, customer discovery, technical demos, AWS

PROFESSIONAL EXPERIENCE

Built production REST APIs using Python and FastAPI.

Worked with PostgreSQL and Redis for backend data services.

Wrote automated tests and CI/CD pipelines for production releases.

Deployed Docker services on AWS.

Diagnosed production issues and collaborated with product engineers.

Maintained service documentation and participated in code reviews.

Optimized API latency and database queries.

Solutions Engineer | Northstar Labs | 2022 - Present

- Led technical discovery and API prototypes for 35 enterprise prospects. Built Python proof of concepts that shortened evaluation cycles 20 percent. Documented integration patterns and trained customer engineering teams. Collaborated with product and engineering partners to deliver measurable customer outcomes.
- Owned technical planning, code reviews, and production support for work aligned to Python and adjacent systems.

EDUCATION

B.S. Computer Science, University of Texas at Dallas, 2018

SELECTED PROJECTS

Solutions Engineer portfolio project: built and documented a production-style solution using Python, with tests, monitoring, and a short implementation guide.
