Grace Lee

Data Scientist

grace.lee@example.test | Los Angeles, CA | portfolio.example.test/gracelee

PROFESSIONAL SUMMARY

Built demand forecasting models for 12 product categories with 14 percent lower error than baseline. Presented statistical findings to operations leaders. Created Tableau dashboards and reusable data quality checks.

TECHNICAL SKILLS

Python, pandas, NumPy, statistics, regression, forecasting, Tableau, SQL

PROFESSIONAL EXPERIENCE

Built production REST APIs using Python and FastAPI.

Worked with PostgreSQL and Redis for backend data services.

Wrote automated tests and CI/CD pipelines for production releases.

Deployed Docker services on AWS.

Data Scientist | Vertex Systems | 2023 - Present

- Built demand forecasting models for 12 product categories with 14 percent lower error than baseline. Presented statistical findings to operations leaders. Created Tableau dashboards and reusable data quality checks. Improved documentation, monitoring, and operational handoffs for the team.
- Owned technical planning, code reviews, and production support for work aligned to Python and adjacent systems.

EDUCATION

M.S. Statistics, UCLA, 2021

SELECTED PROJECTS

Data Scientist portfolio project: built and documented a production-style solution using Python, with tests, monitoring, and a short implementation guide.
