Ben Carter

Network Engineer

ben.carter@example.test | Miami, FL | portfolio.example.test/bencarter

PROFESSIONAL SUMMARY

Designed BGP and firewall changes for a distributed enterprise network. Automated configuration audits with Python. Improved monitoring coverage and reduced mean time to detect network incidents 30 percent.

TECHNICAL SKILLS

Cisco, routing, switching, BGP, firewalls, Python, network monitoring

PROFESSIONAL EXPERIENCE

Built production REST APIs using Python and FastAPI.

Worked with PostgreSQL and Redis for backend data services.

Wrote automated tests and CI/CD pipelines for production releases.

Network Engineer | BlueOak Technologies | 2024 - Present

- Designed BGP and firewall changes for a distributed enterprise network. Automated configuration audits with Python. Improved monitoring coverage and reduced mean time to detect network incidents 30 percent. Collaborated with product and engineering partners to deliver measurable customer outcomes.
- Owned technical planning, code reviews, and production support for work aligned to Cisco and adjacent systems.

EDUCATION

B.S. Network Engineering, Florida International University, 2018

SELECTED PROJECTS

Network Engineer portfolio project: built and documented a production-style solution using Cisco, with tests, monitoring, and a short implementation guide.
