Leila Morgan

Release Engineer

leila.morgan@example.test | Salt Lake City, UT | portfolio.example.test/leilamorgan

PROFESSIONAL SUMMARY

Built release pipelines for 20 repositories with GitHub Actions and Docker. Introduced semantic versioning and automated changelog generation. Reduced rollback time to under 10 minutes and improved release traceability.

TECHNICAL SKILLS

Git, GitHub Actions, Jenkins, Docker, semantic versioning, release automation

PROFESSIONAL EXPERIENCE

Built production REST APIs using Python and FastAPI.

Worked with PostgreSQL and Redis for backend data services.

Wrote automated tests and CI/CD pipelines for production releases.

Deployed Docker services on AWS.

Release Engineer | Northstar Labs | 2022 - Present

- Built release pipelines for 20 repositories with GitHub Actions and Docker. Introduced semantic versioning and automated changelog generation. Reduced rollback time to under 10 minutes and improved release traceability. Improved documentation, monitoring, and operational handoffs for the team.
- Owned technical planning, code reviews, and production support for work aligned to Git and adjacent systems.

EDUCATION

B.S. Software Development, University of Utah, 2019

SELECTED PROJECTS

Release Engineer portfolio project: built and documented a production-style solution using Git, with tests, monitoring, and a short implementation guide.
