Mei Wong

Computer Vision Engineer

mei.wong@example.test | San Jose, CA | portfolio.example.test/meiwong

PROFESSIONAL SUMMARY

Developed segmentation models for manufacturing imagery with 93 percent IoU on validation data. Optimized PyTorch inference with CUDA and batching. Built labeling quality checks and reproducible Docker training jobs.

TECHNICAL SKILLS

Python, PyTorch, OpenCV, CUDA, image segmentation, Docker, Linux

PROFESSIONAL EXPERIENCE

Built production REST APIs using Python and FastAPI.

Worked with PostgreSQL and Redis for backend data services.

Wrote automated tests and CI/CD pipelines for production releases.

Deployed Docker services on AWS.

Computer Vision Engineer | Vertex Systems | 2023 - Present

- Developed segmentation models for manufacturing imagery with 93 percent IoU on validation data. Optimized PyTorch inference with CUDA and batching. Built labeling quality checks and reproducible Docker training jobs. Improved documentation, monitoring, and operational handoffs for the team.
- Owned technical planning, code reviews, and production support for work aligned to Python and adjacent systems.

EDUCATION

Ph.D. Computer Vision, Stanford University, 2023

SELECTED PROJECTS

Computer Vision Engineer portfolio project: built and documented a production-style solution using Python, with tests, monitoring, and a short implementation guide.
