Sara Rossi

Cloud Data Architect

sara.rossi@example.test | Newark, NJ | portfolio.example.test/sararossi

PROFESSIONAL SUMMARY

Designed Azure lakehouse architecture for finance analytics. Implemented Databricks and Delta Lake patterns with governance and lineage. Reduced daily data availability time from 10 hours to 2 hours through incremental processing.

TECHNICAL SKILLS

Azure, Databricks, Spark, Delta Lake, Synapse, Python, data governance

PROFESSIONAL EXPERIENCE

Built production REST APIs using Python and FastAPI.

Worked with PostgreSQL and Redis for backend data services.

Wrote automated tests and CI/CD pipelines for production releases.

Deployed Docker services on AWS.

Cloud Data Architect | Northstar Labs | 2022 - Present

- Designed Azure lakehouse architecture for finance analytics. Implemented Databricks and Delta Lake patterns with governance and lineage. Reduced daily data availability time from 10 hours to 2 hours through incremental processing. Improved documentation, monitoring, and operational handoffs for the team.
- Owned technical planning, code reviews, and production support for work aligned to Azure and adjacent systems.

EDUCATION

M.S. Information Systems, Rutgers University, 2018

SELECTED PROJECTS

Cloud Data Architect portfolio project: built and documented a production-style solution using Azure, with tests, monitoring, and a short implementation guide.
